

Welcome To Life Groups

It's my prayer that your Life Group experience will be an exciting one as we grow together, support each other and 'do life together'.

We encourage you to attend regularly as this helps with growing together and supporting one another. If you are unable to attend, please let your group facilitator know.

Here are some basic guidelines for our groups that are important for us to remember:

1. We will provide time for each person present to talk if he or she feels comfortable doing so.
2. We will talk about ourselves and our situations, avoiding conversations about other people.
3. We will listen attentively to each other.
4. We will respect the views of others, even when their view point is different from our own.
5. Anything said in this group is confidential and will not be discussed outside the group unless specific permission is given to do so. If required, Life Group Facilitators will consult with the Pastoral Care team on matters of significance, using the Care Flow Chart as a guide.
6. We will pray for each other.

Have a great time together. We are looking forward to another great year.

Ps Peter
